

Prize winners' podium

The podium is a unique piece of art, made upon order of VITTI Ltd., by an artist Janusz Krol (the author of special effects and artistic projects in many known Polish and foreign films).

The subject matter of the offer is the podium, along with property copyrights.

The podium consists of 3 segments (1st prize, 2nd prize, and 3rd prize), equipped with a flexible tread wheels, which enables free displacement of segments on tile floors and parquet floors in sports halls.

Each segment is covered with glass plates, illuminated from the inside of the segment's construction (internal halogen illumination).

The central segment as a slot-type construction, which enables attractive distribution of fume generated by a device installed at the back of the segment.

The segments are marked with numbers 1, 2 and 3, made of orange plexiglass.

The segments are connected by a system of pipes. At the ends of the pipes, there are flanges, enabling connection by bolts, with specially strengthened fragments of the segments.

All elements of the podium are made of stainless steel, covered with a special transparent lacquer.

The podium has an internal, professionally designed and constructed electric system.

The podium is equipped with a fume generating device, special glass plates (hardened glass), halogen lamps, and wiring.

Weight: ca. 150 kg
